

# ANNUAL REPORT 2019

KINDEN CORPORATION

**Kinden**

Since our establishment in 1944 to undertake construction of urban and corporate infrastructure, Kinden Corporation has expanded our business as a company established to benefit the public. Even amidst the rapid changes of today, Kinden has grown into one of Japan's leading integrated electrical and facility engineering companies with a nationwide business structure by demonstrating a future-oriented entrepreneurial spirit and picking up on the needs of the market. Kinden also expanded overseas in the 1950s ahead of competitors in the industry, and we have built up over 60 years of experience and credentials in over 90 countries around the globe, including such locations as Hawaii, Guam, countries in Asia, the Middle East and Africa. In recent years, Kinden has expanded proactively into the installation of social infrastructure, primarily in Southeast Asia.

In April 2017, all Kinden employees gathered to share the social significance and mission we inherited as a "Corporate Philosophy" to move forward with society engaging in work with pride and a sense of responsibility.

**We create superior facilities and services,  
support social infrastructure, and contribute to realize a bright, affluent future.**

Kinden will continue our contributions to the power infrastructure business and the further strengthening of community-focused business activities, while at the same time continuing to strengthen business development in the Greater Metropolitan Area and developing business overseas from a long-term perspective. We will contribute to society by meeting customer needs with high technologies and skills that provide safety, peace of mind and comfort.

## CAUTIONARY NOTE ON FORWARD-LOOKING STATEMENTS

The future prospects described in this annual report concerning business planning, earnings, and management strategies are based on management views derived from supporting information available to Kinden Corporation at the time such information was prepared. Accordingly, readers are cautioned against relying solely on these forward-looking prospects because actual results and strategies may differ substantially depending on changes in the Company's business environment.

## Business Results in the Year Ended March 2019

### We attained our operating income target for the medium-term management plan ahead of schedule.

During the fiscal year ended March 2019, the Japanese economy continued a modest recovery thanks to such factors as a visible pickup in personal consumption amid improved employment conditions and to an increase in capital investment.

The construction industry trended firmly, driven mainly by private investment, as large construction projects that included Tokyo Olympic and Paralympic Games-related projects and redevelopment projects got fully underway. On the other hand, a shortage of skilled workers and rising materials prices caused lingering difficulties in the operating environment.

Under these conditions, the Kinden Group formulated a new medium-term management plan spanning four years from the fiscal year ended March 2018 to the fiscal year ending March 2021 and carried out activities to establish a strong business foundation, further improve productivity and improve the work environment and increase employee satisfaction.

The fiscal year under review marked the midway point of the medium-term management plan. The entire company worked as one in implementing action plans for addressing key management issues that include strengthening and linking our three main pillars consisting of the Electrical, Environmental Management Facilities and Information & Communications Network businesses.

As a result, consolidated net sales increased 4.1% from

the previous fiscal year, to ¥521,283 million; operating income increased 4.5%, to ¥40,354 million; and profit attributable to owners of parent decreased 2.2%, to ¥28,844 million. Accordingly, the Kinden Group was able to achieve its operating income target for the final fiscal year of the medium-term management plan two years ahead of schedule.

On a non-consolidated basis, all categories increased from the previous year as net sales of completed construction contracts amounted to ¥456,762 million, up 3.9%, while operating income grew 3.1%, to ¥33,520 million, and profit increased 0.2%, to ¥26,250 million.

Looking at sales by customer, The Kansai Electric Power Company, Incorporated (Kansai Electric Power) accounted for 14.3% of sales, Kansai Electric Power Group companies 3.6% of sales and other customers 82.1% of sales.

Looking at net sales of completed construction contracts by construction sector, the Power Distribution

## Consolidated Financial Highlights

KINDEN CORPORATION AND SUBSIDIARIES  
For the fiscal years ended March 31, 2018 and 2019

	Millions of yen		YoY change	Thousands of U.S. dollars*
	2018	2019		2019
Net sales.....	¥500,700	¥521,283	4.1%	\$4,696,666
Operating income.....	38,618	40,354	4.5%	363,590
Profit attributable to owners of parent.....	29,478	28,844	(2.2)%	259,880
Total assets.....	600,925	634,064	5.5%	5,712,805
Total net assets.....	433,227	450,265	3.9%	4,056,814
Return on equity (ROE).....	7.1%	6.5%	(0.6)pt	—
	Yen			U.S. dollars*
Profit attributable to owners of parent per common share.....	¥135.87	¥132.95	(2.1)%	\$1.19
Cash dividends per common share.....	28.00	30.00	7.1%	0.27

\* U.S. dollar amounts are computed using the March 31, 2019 exchange rate of ¥110.99=US\$1.

Lining, Electrical and Information & Communications Network businesses recorded increases while the Environmental Management Facilities and Electric Power & Others businesses posted declines. Specifically, sales in the Power Distribution Lining business increased 2.6%, to ¥59,355 million, due to an increase in construction work for Kansai Electric Power. Sales in the Electrical business increased 6.2%, to ¥301,741 million, due to an increase in commercial and entertainment facilities and factories despite a decrease in office buildings. Sales in the Information & Communications Network business increased 0.4%, to ¥42,529 million, due to increases in mobile phone-related work and CATV facilities despite

a decline in instrumentation work. Sales in the Environmental Management Facilities business decreased 5.4%, to ¥30,036 million, due to decreases in office buildings and commercial and entertainment facilities despite an increase in factories. Sales in the Electric Power & Others business decreased 2.2%, to ¥23,099 million, due to decreases in the installation of overhead power lines and underground power lines.

Profit attributable to owners of parent per common share decreased ¥2.92 year on year on a consolidated basis, to ¥132.95. On a non-consolidated basis, profit per common share increased ¥0.21, to ¥121.00.

## **Progress of the Medium-Term Management Plan**

### **We are improving productivity and strengthening business in the Greater Metropolitan Area.**

Improving the working environment and raising productivity are two major issues facing Kinden. In addressing these issues, Kinden is taking such measures as visualizing business operations; introducing an interval system for young employees, reducing and promoting a division of labor in non-core operations, adopting IT and promoting robotization. (See page 11 Topics.) On top of this, we are pushing forward with workstyle reforms unique to Kinden that include reviewing our personnel

evaluation system, promoting greater mobility of personnel and assuring diversity.

In the Electrical business, in March 2019 we built a new structure that places the Greater Metropolitan Area under a four branch-office system as we strive to further strengthen our community-focused sales in each area. (See page 11 Topics.) Additionally, Kinden will also concentrate on renewal construction, a market that is expected to expand in the future.

## **Contributing to Maintaining the Social Infrastructure**

### **Kinden will strengthen proposals for disaster mitigation and toughening.**

In the fiscal year ended March 31, 2019, we witnessed the frequent occurrence of natural disasters in Japan, with the Kansai region hit particularly hard. Kinden responded to these disasters by making company-wide efforts toward the quick restoration of the social infrastructure, which included recoveries from wide-area power blackouts caused by typhoons. Kinden has an

increasing number of opportunities for contributing to the maintenance of lifelines and in the future we will focus efforts on proposing facilities for disaster mitigation and toughening as we fulfill our key role of supporting the social infrastructure. (See pages 4-5 Special Feature.)

## **Corporate Governance**

### **We continuously strengthen corporate governance.**

The Kinden Group recognizes that strengthening corporate governance is a key management issue in order to sustainably raise our corporate value. For this reason, we work to continuously strengthen corporate

governance based on two priority measures: increasing the transparency of operations and thoroughly strengthening compliance. (See pages 12-14 Corporate Governance.)

## Return to Shareholders and Dividend Policy

### Kinden increased dividends by ¥2 and paid a full-year dividend of ¥30 per common share.

Kinden maintains the fundamental policy of placing top priority on stable and sustainable dividends for shareholders, with a dividend policy that also takes into account business results and other factors. We have adopted a system of interim dividends to increase shareholder return opportunities, and as part of our shareholder-oriented management, we also provide commemorative dividends to mark special anniversaries and business periods.

Regarding dividends, we pay interim dividends equal to half the amount of expected annual dividends, which are calculated based on full-year earnings forecasts. Meanwhile, we determine the amount of year-end dividends by subtracting the amount of interim dividends from the amount of annual dividends, which are calculated based

on actual business results confirmed at fiscal year-end. Nonetheless, from the perspective of stable and sustainable dividends for shareholders, we ensure that annual dividends are never below ¥14. Additionally, the Kinden Group retains sufficient internal reserves to reinforce our management structure and invest in proactive business development as an integrated electrical and facility engineering company.

In accordance with the above policy, we paid a full-year dividend of ¥30 per common share for the fiscal year ended March 2019. The ordinary interim dividend was ¥14 per share and the year-end dividend was ¥16 per share, which included an ordinary dividend of ¥14 per share in line with the initial forecast in addition to a 75th anniversary commemorative dividend of ¥2 per share.

## Outlook and Strategies for the Fiscal Year Ending March 2020

### We expect an increase in both consolidated and non-consolidated sales and income.

Looking ahead, the Japanese economy is expected to continue a modest recovery amid ongoing improvements in the employment and income environments. Nevertheless, such issues as the impact of trade problems on the global economy as well as uncertainties in overseas economies and fluctuations in financial and capital markets will require close attention. In the construction industry, securing a construction coordination and management structure will continue to be a key issue along with the progression of redevelopment projects and work to upgrade infrastructure, mainly in the Greater Metropolitan Area, as well as the advance of preparations toward the separation of electricity generation, transmission and distribution that will be enforced from April 2020.

Under these conditions, the Kinden Group will continue our contributions to the power infrastructure business and the further strengthening of community-focused business activities, while continuing to strengthen business development in the Greater Metropolitan Area and developing business overseas from a long-term perspective.

For the fiscal year ending March 2020, we forecast consolidated net sales of ¥560,000 million, up 7.4% year on year; operating income of ¥40,400 million, up 0.1%; and profit attributable to owners of parent of ¥30,500 million, up 5.7%. On a non-consolidated basis, we anticipate net sales of ¥490,000 million, up 7.3%; operating

income of ¥33,600 million, up 0.2%; and profit of ¥28,000 million, up 6.7%.

Next fiscal year (ending March 2020), we plan to provide a full-year dividend of ¥30 per common share, comprising an ordinary interim dividend of ¥15 per common share and a year-end dividend of ¥15 per common share.

In the future as well, the Kinden Group will earnestly interact with our customers more than ever before to deepen our bonds of trust with customers, and by extension with society, as it aims to be No. 1 in terms of actual capabilities as an integrated electrical and facility engineering company. We will also strive to be a company that supports society by effectively using the earth's finite energy resources and ensuring that all people live comfortably and that a clean earth is also handed down to the next generation.

I would ask our shareholders and investors for your continued support.

June 2019

Yukikazu Maeda  
President

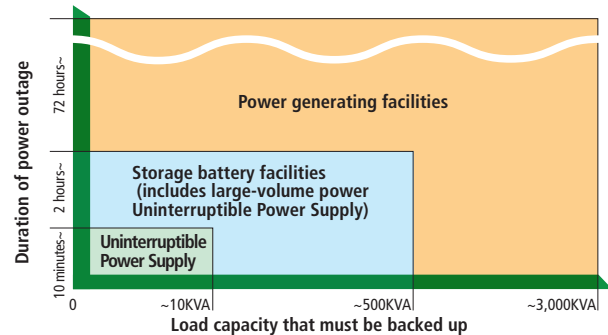

## “Contributing to the Maintaining of the Social Infrastructure” ~Implementing Disaster Countermeasures through Our Businesses~

In recent years, Japan has witnessed frequent occurrences of major disasters resulting from typhoons, earthquakes and other natural phenomena. For this reason, the importance of preparing the infrastructure for such natural disasters is now greater than ever. In February 2019, the government’s Earthquake Research Committee announced its forecast concerning the possibility of a large-scale earthquake striking Japan in the future and issued a widespread warning. As an integrated electrical and facility engineering company that supports the social infrastructure, Kinden actively undertakes a diversity of businesses involving disaster countermeasures that range from disaster mitigation to restoration businesses. In this Special Feature we introduce examples of some of the disaster countermeasures provided by Kinden.

### Supporting Business Continuity by Assuring Power Sources in Emergencies

Emergency power sources such as an uninterruptible power supply (UPS), large-capacity storage batteries and power generators are extremely effective equipment in preparing for power blackouts caused by natural disasters. Nonetheless, relying on emergency power generating equipment to secure electric power required for entire loads is not easy due to factors such as the cost of introducing this equipment. With this in mind, Kinden listens closely to customer requests such as which facilities must be backed up and to what degree and then makes proposals tailored to customer needs in terms of cost, efficiency and other aspects.

Emergency power supply system: Available time and capacity

Example of backup load (for a hospital)

- Power generating facilities Fire extinguishing pumps/Elevators/Ordinary and emergency lighting
- Storage battery facilities Operating room/Dialysis equipment/Life support systems
- Uninterruptible Power Supply Ordering/PC for electronic medical records/Server

### Disaster Preparation through Redundancy of the Information Communication Infrastructure

Data on servers becomes inaccessible when an information network failure occurs due to a disaster. Therefore, an increasing number of companies are integrating their own business information into servers at data centers, which adopt a variety of measures against failure. Kinden has been involved in the construction of numerous data centers. Kinden raises facility availability through redundancy that handles multiple types of equipment such as routers and access circuits in addition to providing its highly reliable power sources.

## Maintaining a Hygienic Environment by Making Preparations for Disrupted Water Supplies

Securing potable water and treating excretion are crucial issues in times of disaster. In recent years there have even been instances of deaths from dehydration and cerebral infarction resulting from people curtailing water consumption to reduce toilet use after toilets became unsanitary due to disrupted water supplies. Kinden installs water-purifying equipment at on-site wells, increases water receiving tanks and sets up emergency-use manhole toilets as part of efforts to assure hygienic living environments that enable facility users to focus on disaster restoration.

Water-purifying equipment

## Protecting Facilities through Anti-Seismic Reinforcement

Strong shaking from earthquakes causes various types of damage such as the overturning of power reception and transforming systems; damaging of cable racks, electric wiring and water supply and drainage pipes; and the falling of lighting fixtures. To reduce such damage, Kinden installs rubber vibration isolators and stoppers and takes additional reinforcement measures that utilize angle steel and other seismic-resistant support materials as well as anti-vibration metal fittings. Furthermore, Kinden strives to prevent short circuits in flexible conductors near transformers by carrying out protective measures for insulation covers and insulation separators.

Case1 : Cubicle and Self-standing panel

Case2 : Cable rack and electric wiring

Example of S·A-type earthquake-resistance support\*

Example of B-type earthquake-resistance support\*

\*Earthquake resistance: S-type equipment has the strongest resistance followed by A type and then B type.

### Case Example

## Typhoon and Earthquake Restoration Responses (September 2018)

In 2018 as well, Japan was struck by numerous natural disasters. During September in particular, Typhoon No. 21 (Typhoon Jebi) crossed Shikoku and the Kinki regions, wreaking enormous damage. Two days later, the Hokkaido Eastern Iburi Earthquake with an intensity of 7 on the Japanese seismic scale struck, causing a power blackout throughout all of Hokkaido. In response to these disasters, Kinden worked around the clock toward disaster restoration, with these efforts led mainly by the Power Distribution Lining and the Electrical departments, and in doing so contributed to the quick restoration of facilities. These initiatives by Kinden were highly acclaimed by customers and local residents alike.

Rebuilding a broken power pole (Osaka)

Electric power line replacement work in a mountainous region (Shiga)

## RECENT MAJOR PROJECTS

*Here we feature examples of projects that leverage our integrated strengths from across a broad range of sectors.*

### **Power Distribution Lining**

Installation work on power distribution line of The Kansai Electric Power Company, Incorporated (Hyogo)

### **Electrical**

Otemachi PLACE (Tokyo)

## ***Information & Communications Network***

Mitarai rest house base station (Nara)

## ***Environmental Management Facilities***

Laguna Baycourt Club Hotel & Spa Resort (Aichi)

## ***Electric Power & Others***

New setting work of underground pipe line (Hyogo)

## Summary by Operation

The summary by operation is on a non-consolidated basis. Orders received were up year on year in all operations consisting of the Power Distribution Lining, Electrical, Information & Communications Network, Environmental Management Facilities and Electric Power & Others segments. Although net sales of completed construction contracts were up year on year in the Power Distribution Lining, Electrical and Information & Communications Network segments, they decreased in the Environmental Management Facilities and Electric Power & Others segments. Going forward, in the construction industry we expect increases in redevelopment projects and the upgrading of infrastructure, mainly in the Greater Metropolitan Area. Nevertheless, construction coordination and management continues to be a key issue. Under these circumstances, the Kinden Group will continue to contribute to the power infrastructure business and undertake community-focused business activities. At the same time, the Group will further strengthen its business development in the Greater Metropolitan Area as well as develop business overseas from a long-term perspective and will contribute to society by meeting customer needs with high technologies and skills that provide safety, peace of mind and comfort.

### Construction Orders

### Net Sales of Completed Construction Contracts by Operation

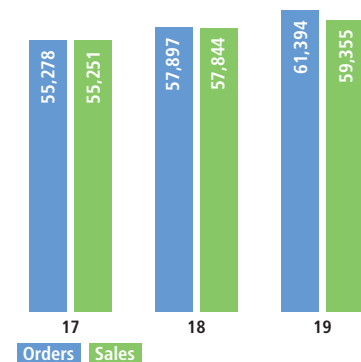

## Power Distribution Lining

Orders received increased 6.0% from the previous fiscal year, to ¥61,394 million, and net sales of completed construction contracts rose 2.6%, to ¥59,355 million. The main reason for these increases was a rise in construction work for The Kansai Electric Power Company, Incorporated. Although our business foundation is stable in Power Distribution Lining, the outlook for construction work from Kansai Electric Power is uncertain and in the next fiscal year we expect both orders received and net sales of completed construction contracts from Kansai Electric Power to decline year on year. Alternatively, for other power distribution-related work we expect increases in both orders received and net sales of completed construction contracts. In other power distribution-related work we intend to focus on such construction work as high-voltage bulk electric power receiving works for apartment buildings, high-voltage construction work for convenience stores and internal facility construction projects (power receiving and transforming equipment, etc.). At the same time, in the Kanto area we will promote the further strengthening of our structure on the basis of securing orders for high-voltage bulk electric power receiving works for apartment buildings and high-voltage construction work for convenience stores.

### Orders and Sales

Millions of yen

## Electrical

Orders received increased 10.3% from the previous fiscal year, to ¥325,909 million, and net sales of completed construction contracts were up 6.2%, to ¥301,741 million. The main factors supporting the increase in orders received include office buildings and factories, while net sales of completed construction contracts were higher due to an increase in commercial and entertainment facilities and factories. Going forward, we will further strengthen business development in the Greater Metropolitan Area and intensify sales in areas such as renewal construction and logistics facilities, where there has been robust capital investment in recent years, as well as investment for data centers, where demand is expanding. In terms of overseas works, having established long-term business development overseas as one of our business strategies, we will also make an effort to expand orders received by working closely with communities in countries where economic growth is expected, in addition to focusing on Japanese-owned private factories and large-scale commercial facilities mainly in Asia.

### Orders and Sales

Millions of yen

## Information & Communications Network

Compared with the previous fiscal year, orders received increased 15.6%, to ¥47,679 million, and net sales of completed construction contracts rose 0.4%, to ¥42,529 million. Orders received and net sales of completed construction contracts for FTTH installation work from an affiliate of Kansai Electric Power remained virtually level with the previous fiscal year. Orders received and net sales of completed construction contracts for mobile phone-related work and CATV facilities both increased. In the future, we will also focus on securing orders for information-infrastructure related works that include government and municipal projects, wireless-activated disaster warning systems for tunnels and security surveillance equipment as well as the installation of LAN and other in-house communication works.

### Orders and Sales

Millions of yen

## Environmental Management Facilities

Orders received increased 10.4% year on year, to ¥33,445 million, while net sales of completed construction contracts declined 5.4%, to ¥30,036 million. The main reasons for the increase in orders received were rises in educational and cultural facilities and factories, while the decrease in net sales of completed construction contracts was due to declines in office buildings and commercial and entertainment facilities. Going forward, with operation centered around the Greater Metropolitan Area and Kansai Area, we will focus efforts on securing orders related to tourism and logistics facilities and data center projects in addition to our traditional focus on office buildings as well as health-care, educational, cultural, commercial and entertainment facilities, and factories. We will also attempt to expand orders through proactive proposals to customers related to energy-saving and business continuity planning (BCP) measures.

### Orders and Sales

Millions of yen

## Electric Power & Others

Orders received increased 50.9% year on year, to ¥35,980 million, and net sales of completed construction contracts declined 2.2%, to ¥23,099 million. The increase in orders received was mainly due to increases in installation of overhead power lines and power station and substation construction work. The decrease in net sales of completed construction contracts was mainly due to a decrease in installation of overhead power lines. Going forward, we will work to secure orders for construction work for improving safety such as overhead power line projects to replace aging power lines and electrical transmission tower reconstruction as well as for renewable-energy related facilities such as the construction of solar and wind power generation facilities.

### Orders and Sales

Millions of yen

## ■ Composition of Non-Consolidated Net Sales, Contract Backlog by Operations and Shareholding Ratio (Fiscal 2019)

Net Sales by Customer

Net Sales by Region (excluding sales of Power Distribution Lining)

Net Sales by Facility (Electrical)

Net Sales of Renewal Construction by Operation (excluding sales of Power Distribution Lining)

Contract Backlog by Operation

Shareholding Ratio

## Initiatives for Raising Productivity through the Deployment of Robots and IT

Amid an increasingly conspicuous labor shortage in the construction industry, Kinden is working to enhance the efficiency of our construction-related operations to maintain high-quality construction.

In line with this background, Kinden developed a lux measurement robot. This robot can be set by a tablet device and drives autonomously to the lux measurement point. The intensity of lux data is automatically saved by the robot. Compared with previous methods, this robot reduces actual working time needed for lux measuring by approximately 90%.

Additionally, Kinden and Regolith Inc. jointly developed an optional function that applies IT in electrical and mechanical equipment construction inspections in association with Regolith's SpiderPlus®, a cloud-based drawing

management and data sharing app. This is used with various types of measuring instruments equipped with Bluetooth Low Energy. Because this function enables measurements and inspection report preparation to be undertaken simultaneously, there are expectations for significantly enhancing the efficiency of inspection work.

In the future as well, Kinden will contribute to enhancing the efficiency of on-site management work and provide high-quality facilities that can be used with a sense of security, thereby contributing to maintaining the social infrastructure.

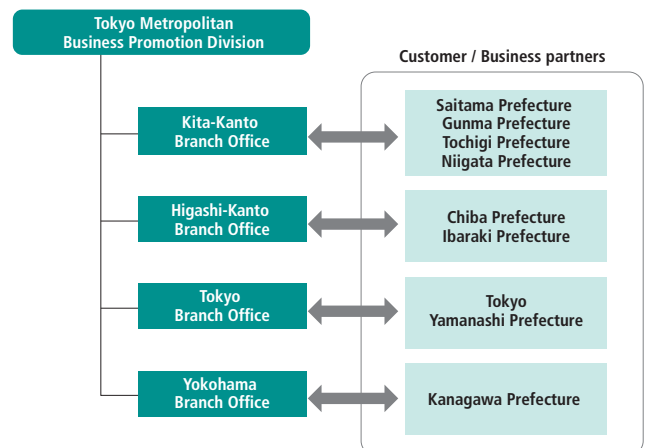

Lux measurement robot

## Two Branches Newly Launched to Further Strengthen Business in the Greater Metropolitan Area

On March 16, 2019, Kinden organized a new business structure to further strengthen our business in the Greater Metropolitan Area. Specifically, two construction departments (Kita-Kanto and Higashi-Kanto Construction departments) that operated under the jurisdiction of the Tokyo Branch Office were elevated to independent branch offices. As a result, together with the Yokohama Branch Office, Kinden now operates a four-branch structure within the Greater Metropolitan Area as we further strengthen our community-focused sales and carry out business in each respective area. Moreover, each branch office undertakes independent management while Tokyo Metropolitan Business Promotion Division supervises these four branch offices to promote efficient business operations in the Greater Metropolitan Area as a whole. We aim to further raise productivity by undertaking integrated operations while optimizing organizational management taking an overall view of the entire Greater Metropolitan Area.

### Sales activity network in the Greater Metropolitan Area

## Main Policies

Kinden recognizes improving corporate governance as an important management issue for stronger, faster and more precise execution of operations, and to flexibly respond to changes in the business environment. We strive to further reinforce our corporate governance giving priority to improving the transparency of operations and observing absolute compliance.

The Company has adopted the Audit & Supervisory Board Member system. Based on the system shown below, the Company seeks to enhance its monitoring function over management activities in cooperation with accounting

auditors and the internal auditing department.

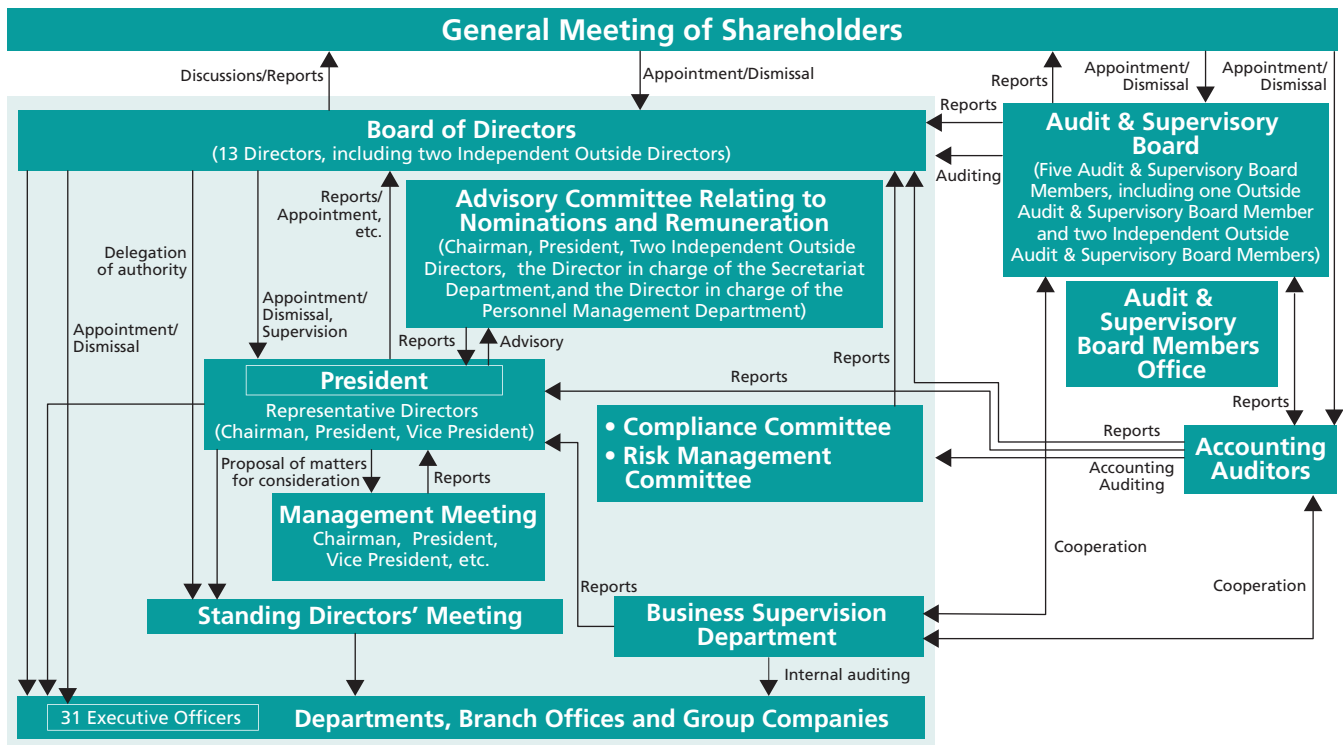

The Company has adopted an Executive Officer system, with the aim of speeding up decision making, enhancing the monitoring function over business execution and enabling the executive officers in charge of specific operations to focus on their business execution. With regard to the monitoring function, the Company seeks to strengthen supervision over business operations by organizing Board of Directors and Standing Directors' Meetings headed by the chairman on a regular basis.

## Corporate Governance System

### Overview of the Corporate Governance System

Corporate governance structure	A company with Audit & Supervisory Board Members
Chairman of the Board	Masao Ikoma (Chairman)
Number of Directors	13 (including two Outside Directors)
Directors' terms of office	One year
Number of Audit & Supervisory Board Members	Five (including three Outside Audit & Supervisory Board Members)
Audit & Supervisory Board Members' term of office	Four years
Appointment of Independent Directors	Two Outside Directors
Appointment of Independent Officers	Two Outside Audit & Supervisory Board Members
Key meetings attended by Audit & Supervisory Board Members	Board of Directors, Audit & Supervisory Board
Accounting auditor	PKF Hibiki Audit Corporation

### Corporate Governance Structure

## Overview of Main Meetings and Committees

Standing Directors' Meeting	Purpose: To deliberate the promotion of concrete management activities and the establishment of policies and plans affecting general company management other than important matters requiring Board of Directors' Meeting resolutions as stipulated in the Companies Act Held: Semimonthly; Participants: Standing Directors and Standing Audit & Supervisory Board Members
Management Meeting	Purpose: To deliberate management policies critical for the Company including the proposals to the Standing Directors' Meeting Held: Semimonthly; Participants: Chairman, President, Vice President, etc.
Compliance Committee	Purpose: To strengthen the compliance function Held: Semiannually; Participants: Members of the Management Meeting, Audit & Supervisory Board Member representatives and executive officers in charge of compliance
Risk Management Committee	Purpose: To strengthen the risk management function Held: Semiannually; Participants: Directors in charge, Major Department Managers of Head Office
Advisory Committee Relating to Nominations and Remuneration	Purpose: To strengthen the independence, objectivity and accountability of the Board of Directors' Meeting function, specifically with respect to important matters including the appointment of directors and Audit & Supervisory Board Members and director remuneration Participants: Chairman, President, Outside Directors, the Director in charge of the Secretariat Department and the Director in charge of the Personnel Management Department

## Status of Enhancement of the Risk Management System

The Company has instituted a Compliance Committee to enhance compliance functions. It has also set up a Risk

Management Committee in an effort to strengthen risk management functions.

## Audit & Supervisory Board and Internal Audits

The Audit & Supervisory Board supervises the business execution of the Board of Directors in accordance with policies set by Audit & Supervisory Board composed of the five Audit & Supervisory Board Members. It performs oversight by such means as attending Board of Directors and other important meetings, listening to business reports from the Board of Directors and reviewing important documents. Additionally, regular meetings are set between the President and the Audit & Supervisory Board Members to provide opportunities to exchange information, and report and examine the execution of operations.

Of the five Audit & Supervisory Board Members, one Audit & Supervisory Board Member (full-time) previously

served as the Company's Finance & Accounting Department manager and one independent Outside Audit & Supervisory Board Member is a certified tax accountant, and both have high-level knowledge and judgment regarding finance and accounting.

Internal audits are conducted, as ordered by the President, by the Business Supervision Department (eight members), which carries out regular operations audits on the structure and administration of internal controls and audits on specific items as specially instructed. The results are reported to the President and Audit & Supervisory Board Members.

## Relationships with Outside Directors and Outside Audit & Supervisory Board Members

With respect to Outside Directors Harunori Yoshida and Hanroku Toriyama, there are no personal relationships, capital relationships, business relationships or other special interests between Kinden and these individuals or the organizations to which they belong. They have been appointed and reported as independent directors in accordance with criteria for the exchange of financial instruments and there is no risk of conflicts of interest with general shareholders.

One of the three Outside Audit & Supervisory Board Members, Yasuhiro Yashima, is an executive officer (an Audit & Supervisory Board Member) of The Kansai Electric Power Company, Incorporated, a client of Kinden's power distribution lining and power line transmission work (Elec-

tric Power & Others) who also concurrently serves as a Kinden Audit & Supervisory Board Member. As of March 31, 2019, Kansai Electric Power holds 33.9% of all shareholder voting rights (27.2% directly, 6.7% indirectly) making it an "other affiliated company" of Kinden. With respect to Masami Yoshioka and Toshimitsu Kamakura, there are no personal relationships, capital relationships, business relationships or other special interests between Kinden and these individuals or the organizations to which they belong. They have been appointed and reported as independent officers in accordance with criteria for the exchange of financial instruments and there is no risk of conflicts of interest with general shareholders.

### Reason for Appointment as Outside Directors

<p><b>Harunori Yoshida</b></p> <p>Although Mr. Harunori Yoshida has not been involved in corporate management except for his past experience as an Outside Director, he has appropriately advised the Company on its management based on his wealth of knowledge and insights as an expert of architecture. Therefore, he is believed to be a person suitable to be an Outside Director of the Company.</p>	<p><b>Hanroku Toriyama</b></p> <p>Although Mr. Hanroku Toriyama has not been involved in corporate management except for his past experience as an Outside Audit &amp; Supervisory Board Member, he has expertise concerning corporate legal affairs, and has appropriately advised the Company on its management from an objective and specialized perspective. Therefore, he is believed to be a person suitable to be an Outside Director of the Company.</p>
---	--

### Reason for Appointment as Outside Audit & Supervisory Board Members

<p><b>Yasuhiro Yashima</b></p> <p>Mr. Yasuhiro Yashima has extensive experience as well as a wealth of knowledge and insights on corporate management of The Kansai Electric Power Company, Incorporated. Therefore, he is believed to be suitable to be an Outside Audit &amp; Supervisory Board Member of the Company and is selected again for such a position, with an expectation of providing adequate advice on the Company's management.</p>	<p><b>Masami Yoshioka</b></p> <p>Although Mr. Masami Yoshioka has not been involved in corporate management, he has extensive knowledge and insights on finance, accounting and taxation matters as a tax accountant and has a wealth of experience at tax administration agencies. Therefore, he is believed to be suitable to be an Outside Audit &amp; Supervisory Board Member of the Company and continues to be selected for such a position.</p>	<p><b>Toshimitsu Kamakura</b></p> <p>Although Mr. Toshimitsu Kamakura has not been involved in corporate management except for his past experience as an Outside Director, he is an expert in corporate legal affairs and has a wealth of experience and extensive knowledge and insights as a lawyer. Therefore, he is believed to be suitable to be an Outside Audit &amp; Supervisory Board Member of the Company and continues to be selected for such a position.</p>

## Director Remuneration

Total amount of remuneration for each executive officer category, total amount of remuneration by remuneration type and number of applicable executive officers

Executive director category	Total remuneration (Millions of yen)	Total remuneration by remuneration type (Millions of yen)			Number of applicable executive officers
		Fixed remuneration	Performance-based remuneration	Retirement benefits	
Directors (Excluding Outside Directors)	534	455	78	—	15
Audit & Supervisory Board Members (Excluding Outside Audit & Supervisory Board Members)	66	66	—	—	3
Outside Directors and Outside Audit & Supervisory Board Members	30	30	—	—	7

Note: Includes remuneration for five Directors and three Audit & Supervisory Board Members who retired at the conclusion of the 104th General Meeting of Shareholders held in June 2018.

## Remuneration for Audit Services

Remuneration paid to PKF Hibiki Audit Corporation in the 105th fiscal term (the fiscal year ended March 31, 2019) for services set forth by the Certified Public Accountants Law totaled ¥47 million and remuneration for non-auditing services totaled ¥3 million. Non-auditing services consist of financial research services.

(Note) The Company has adopted the Partial Amendments to Accounting Standard for Tax Effect Accounting (ASBJ Statement No. 28, February 16, 2018) from the beginning of the consolidated fiscal year under review and therefore the figures for total assets and equity ratio for previous consolidated fiscal years are expressed after retroactive application of this accounting standard.

\*1 Lease assets are included in capital investment amounts.

\*2 Number of employees (employees at work in Kinden) = Employees – Employees dispatched outside of Kinden + Workers dispatched by another company to Kinden

## RESULTS OF OPERATIONS

The Kinden Group recorded a ¥20,582 million increase in net sales of completed construction contracts from the previous fiscal year to ¥521,283 million (US\$4,696,666 thousand). Operating income rose ¥1,736 million, to ¥40,354 million (US\$363,590 thousand). Ordinary income increased ¥2,107 million, to ¥42,491 million (US\$382,838 thousand). Profit attributable to owners of parent decreased ¥634 million, to ¥28,844 million (US\$259,880 thousand). Net sales of completed construction contracts, operating income and ordinary income increased year on year, but profit attributable to owners of parent declined from the previous year.

## FINANCIAL POSITION

### Assets

Current assets at March 31, 2019 amounted to ¥395,496 million, up ¥31,245 million, or 8.6%, from March 31, 2018. The rise was due primarily to an increase in notes receivable, accounts receivable from completed construction contracts and other.

Noncurrent assets increased ¥1,893 million, or 0.8%, from the end of the previous fiscal year, to ¥238,568 million. Property, plant and equipment decreased ¥1,252 million, to ¥97,582 million. There were no particularly large new acquisitions and sales or disposals and this decrease was mainly because depreciation expenses exceeded the amount of acquisitions of property, plant and equipment. Investments and other assets rose ¥2,835 million, to ¥138,634 million. This was mainly because of an increase of investment securities.

As a result, total assets amounted to ¥634,064 million (US\$5,712,805 thousand) at the end of the fiscal year, up ¥33,138 million, or 5.5%, from the end of the previous fiscal year.

### Liabilities

Current liabilities increased ¥17,658 million, or 12.9%, from the end of the previous fiscal year to ¥154,127 million. The increase was mainly due to a rise in notes payable, accounts payable for construction con-

tracts and other.

Noncurrent liabilities decreased ¥1,558 million, or 5.0%, to ¥29,671 million. Consequently, total liabilities came to ¥183,798 million (US\$1,655,991 thousand), an increase of ¥16,100 million, or 9.6%, from the end of the previous fiscal year.

### Net Assets

Shareholders' equity rose ¥21,788 million, to ¥417,646 million, due to an increase in retained earnings on the posting of profit attributable to owners of parent. Accumulated other comprehensive income decreased ¥4,743 million, to ¥31,465 million, due to a decline in the market value of investment securities. Additionally, non-controlling interests amounted to ¥1,153 million.

As a result, total net assets amounted to ¥450,265 million (US\$4,056,814 thousand), an increase of ¥17,038 million, or 3.9%, from the end of the previous fiscal year. The equity ratio stood at 70.8%, down 1.1 percentage points from the end of the previous fiscal year.

## CASH FLOW ANALYSIS

Net cash provided by operating activities in the fiscal year under review amounted to ¥23,931 million (US\$215,615 thousand). This was due to profit before income taxes, despite income taxes paid and an increase in notes and accounts receivable-trade.

Net cash used in investing activities came to ¥11,608 million (US\$104,593 thousand), due to payments for the purchase of property, plant and equipment and purchase of investment securities.

Net cash used in financing activities was ¥7,158 million (US\$64,495 thousand), mainly owing to cash dividends paid.

As a result, cash and cash equivalents stood at ¥147,191 million (US\$1,326,166 thousand), an increase of ¥5,712 million from the end of the previous fiscal year.

## RISK FACTORS

The following are risk factors that may have an impact on the Group's business results, share price and financial position.

Those future issues mentioned in this document are the risks that have been assessed by the Group as of the end of the fiscal year under review.

### Economic Conditions

The demand for electrical facility installation work, which is the major source of the Kinden Group's earnings, is influenced by economic conditions in the regions and countries in which the Group receives orders.

#### 1. Price-based competition for private-sector construction orders

The most crucial factor in obtaining orders becomes pricing, which encourages intense price-based competition. If demand for construction declines or shrinks, price competition would become even more severe, and this may lead to a negative impact on the Group's results and financial position.

#### 2. Increased materials costs

A sharp surge to higher levels than forecast in the price of raw materials, including prices for steel, copper and other commodities, may decrease the profitability of construction work, and could negatively affect the Group's results and financial position and may lead to a negative impact on the Group's results and financial position.

#### 3. Restrained construction investment through national and local government policy

Based on policies of the national government and local government bodies to restrain construction investment, public works orders have declined and the Kinden Group has felt the impact of these policies. If, in the future, policies are implemented that further restrain construction investment, resulting in a significant drop in orders compared with the current level, this may lead to a negative impact on the Group's results and financial position.

#### 4. Restrained capital investment by electric power companies

The Kinden Group receives orders and carries out power distribution lining, electric power and other work from The Kansai Electric Power Company, Incorporated, a major customer. In the performance of this work, the Kinden Group faces a range of fixed costs, including labor costs and costs associated with vehicles, machinery, equipment and the maintenance of operations centers. If, in the future, capital investment by electric power companies becomes further restrained, resulting in a significant imbalance between the level of orders received and the operational infrastructure maintained by the Group, this may lead to a negative impact on the Group's results and financial position.

#### 5. Changes in overseas economic conditions and regulatory environment

The Kinden Group is active in overseas construction markets, particularly in infrastructure-related construction. If changes occur in the economic situation or regulatory environment of countries or regions in which the Group operates, this may lead to a negative impact on the Group's results and financial position.

#### Exposure to Bad Debts Due to Customer Bankruptcies and Other Factors

The Kinden Group undertakes work based on contracts concluded with customers. Contracts are performed and payment is received according to contract conditions. The Group has strengthened its credit control systems in recent years; however, if a customer falls into bankruptcy, the Group would likely face exposure to bad debts. Depending on the size of the bad debts, this may lead to a negative impact on the Group's results and financial position.

#### Impact of Large-Scale Natural Disasters

If a large-scale natural disaster occurs and Group facilities (buildings, cars, construction equipment, etc.) suffer damages, or if the domestic economy is disrupted as a result of a natural disaster, this may lead to a negative impact on the Group's results and financial position.

See the accompanying notes to consolidated financial statements.

## 1. Basis of Presenting Consolidated Financial Statements

The accompanying consolidated financial statements have been prepared from the accounts and records maintained by KINDEN CORPORATION ("the Company") and its consolidated subsidiaries ("the Group"). The Company and its consolidated subsidiaries maintain their accounts and records in accordance with the provisions set forth in the Financial Instruments and Exchange Law of Japan and in conformity with principles and practices generally accepted in Japan, which are different in certain respects from the accounting and disclosure requirements of international accounting standards.

The consolidated financial statements are prepared from the financial statements of the Company and its consolidated subsidiaries, which are filed with the Ministry of Finance as required by the Financial Instruments and Exchange Law of Japan.

The amounts stated in the accompanying consolidated financial statements are in Japanese yen. U.S. dollar amounts included in the accompanying consolidated financial statements and the notes to consolidated financial statements represent the arithmetic result of translating Japanese yen to U.S. dollar amounts on a basis of ¥110.99 to US\$1, the fixed-market rate on March 31, 2019. U.S. dollar amounts are rounded down to the nearest thousand dollars. Such U.S. dollar amounts are not intended to imply that Japanese yen amounts have been converted, realized or settled in U.S. dollars, at that or any other rate.

## 2. Basis of Consolidation and Accounting of Investments in Affiliated Companies

- (1) Consolidated subsidiaries: 18
- (2) The names of the principal consolidated subsidiaries are as reported in Network on p.46-47 of the Annual Report.
- (3) Names of non-consolidated subsidiaries
  - Kinden International, Ltd.
  - Kinden India Private Limited

Non-consolidated companies are excluded from the scope of consolidation because they are small companies and their totals of total assets, net sales, profit (proportionate to equity holding) and retained earnings (proportionate to equity holding) have no material effect on the consolidated financial statements.

## 3. Major Affiliates Accounted for by the Equity Method

- (1) Number of affiliate accounted by the equity method: 1
- (2) Name of affiliate accounted by the equity method
  - KINKA Corporation
- (3) Names of subsidiaries not accounted for by the equity method
  - Kinden International, Ltd.
  - Kinden India Private Limited
- (4) Names of affiliates not accounted for by the equity method
  - Sanyu Co., Ltd. and four other companies

The two non-equity method non-consolidated subsidiaries and the five non-equity method affiliates are excluded from the application of the equity method owing to their having no material effect on profit (proportionate to equity holdings) and retained earnings (proportionate to equity holdings) and due to their having little significance in relation to the Company's overall position.

## 4. Fiscal Year-End of Consolidated Subsidiaries

Among the consolidated subsidiaries, the account closing date for US Kinden Corporation, Wasa Electrical Services, Inc., P.T. Kinden Indonesia, Kinden Phils Corporation, Kinden Vietnam Co., Ltd. and

Kinden (Thailand) Co., Ltd. is December 31. The financial statements as of the account closing date are used in the preparation of the consolidated financial statements. The necessary adjustments are made to the consolidated financial statements for significant transactions that occur during the period from January 1 to March 31.

The fiscal year-end for consolidated subsidiaries other than those listed above is the same as the Company.

## 5. Summary of Significant Accounting Policies

### (1) Standards and Methods for Valuing Assets

#### Securities

##### 1) Held-to-maturity debt securities

Amortized cost method (Straight-line method)

##### 2) Available-for-sale securities

###### Securities with quoted market values

Securities with quoted market values are stated at fair value on the consolidated account settlement date. (Net unrealized gains and losses on available-for-sale securities are reported directly to net assets. The costs of these securities are calculated based on the moving-average cost method.)

###### Securities without quoted market values

Securities without quoted market values are stated on a cost basis using the moving-average method.

#### Derivatives

Market value method

#### Inventories

##### 1) Costs on uncompleted construction contracts

Costs on uncompleted construction contracts are stated at actual cost.

##### 2) Raw materials and supplies

Raw materials and supplies are principally stated at most moving-average method. (The balance sheet amounts are determined by writing down the book value based on the decrease in profitability.)

### (2) Method of Depreciation of Material Depreciable Assets

#### 1) Tangible fixed assets (Excluding leased assets)

The Company and its domestic consolidated subsidiaries mainly compute depreciation of property, plant and equipment based on the declining-balance method, except that buildings and structures (excluding attached structures) acquired on or after April 1, 1998 and facilities attached to buildings and structures acquired on or after April 1, 2016 are depreciated by the straight-line method. The overseas consolidated subsidiaries mainly compute depreciation of property, plant and equipment using the straight-line method.

Useful lives of principal assets are as follows:

- Buildings and structures 10 to 50 years
- Machinery and vehicles 3 to 22 years

#### 2) Intangible assets (Excluding leased assets)

Straight-line method

Amortization of internal-use software is calculated by the straight-line method over the useful life of the asset in the Company (five years).

### **3) Leased assets**

Leased assets related to finance leases that do not transfer ownership are depreciated using the straight-line method, with zero residual values and useful lives equal to lease terms.

## **(3) Accounting Basis for Allowances**

### **1) Allowance for doubtful accounts**

To make allowance for possible losses on receivables, including loans receivable and accounts receivable, the Company provided an amount to cover possible losses on collection. It consists of the estimated uncollectible amount calculated by applying the percentage of actual losses on collection to the remaining receivables experienced in the past and the identified doubtful receivables determined by management.

### **2) Provision for loss on construction contracts**

To provide for future losses on construction orders, the Company makes allowance provisions for uncompleted construction contracts at year-end based on projected losses. The provision amount is determined by a rational estimate of the likely loss amount.

### **3) Provision for warranties for completed construction**

To provide for possible future expenses under warranties for completed construction contracts, the Company makes allowance provisions for construction contracts completed during the fiscal year. The provision amount is determined based on estimates of claims on construction contracts for which the Company has warranty liability.

### **4) Provision for directors' bonuses**

To provide for the payment of directors' bonuses, the Company makes allowance provisions for directors' bonuses based on the expected amount applicable to the fiscal year.

### **5) Provision for directors' retirement benefits**

To provide for the payment of directors' retirement benefits, some of the domestic consolidated subsidiaries record provisions for benefits for retired directors in an actual amount equal to the need at the end of the consolidated fiscal year under review calculated based on company regulations.

## **(4) Retirement Benefits**

### **1) Method of attributing expected benefit to period**

To calculate retirement benefit obligation, the Company calculates the estimated amount of retirement benefits attributed to the consolidated fiscal year under review according to the benefit formula, while consolidated subsidiaries employ the straight-line attribution method.

### **2) Amortization of actuarial differences and prior service cost**

Actuarial differences are amortized and allocated proportionately beginning with the year following the year in which the difference

was incurred. Amortization is performed using the straight-line method over a set number of years (mainly 15 years), which falls within the average remaining years of service of the employees when the difference was incurred for each consolidated fiscal year.

Prior service cost is amortized using the straight-line method over a set number of years (15 years) falling within the average remaining years of service when such liabilities are incurred.

### **3) Accounting treatment of unrecognized actuarial gains and losses and unrecognized prior service costs**

Unrecognized actuarial gains or losses and unrecognized prior service costs, net of tax effects, are recorded in accumulated other comprehensive income (remeasurements of defined benefit plans) under net assets.

### **4) Application of simplified methods for small companies**

Certain of the Company's consolidated subsidiaries calculate the simplified method to calculate retirement benefit obligations and retirement benefit costs, stating retirement benefit obligations at the necessary payment amounts for voluntary retirement as of the end of the fiscal year.

## **(5) Recognition of Revenues and Costs of Construction Contracts**

Net sales of completed construction contracts are determined based on the percentage-of-completion method (where progress of the work is estimated on the cost-to-cost basis) for the portion of construction in progress that is deemed certain to be completed by the fiscal year-end, and based on the completed-contract method for other work.

## **(6) Accounting for Hedging**

### **1) Method for hedge accounting**

Hedging activities are principally accounted for under the deferral hedge accounting method. If the criteria for appropriation are met, gains and losses on foreign exchange forward contracts are appropriated, and if the criteria for special cases are met, gains and losses on interest rate swaps are accounted for in a non-standard way.

### **2) Hedging instruments and hedged items**

#### *Hedging instruments*

Foreign exchange forward contracts and interest rate swaps are used.

#### *Hedged items*

Loans, transactions expected to be denominated in foreign currencies, and accounts payable denominated in foreign currencies related to the importation of raw materials.

### **3) Hedging policy**

Based on internal regulations that stipulate items such as the authority for derivative trading and the scope of transactions, exchange-rate risks and interest-rate risks related to the hedged items are hedged to a certain degree.

### **4) Method for evaluating the effectiveness of hedges**

A comparison of the accumulative changes in cash flows of the

hedged items or the changes in exchange rates and the accumulative changes in cash flows of the hedging instruments or the changes in exchange rates are made every six months, and the effectiveness of hedges is evaluated based on the factors such as the amount of changes.

The evaluation of the effectiveness of the interest rate swaps accounted for using the non-standard method has been omitted.

#### **(7) Amortization of Goodwill**

Goodwill is amortized on a straight-line basis over the period of benefit up to 20 years. However, when the amount is immaterial, it is written off as an expense in the accounting period in which it was incurred.

#### **(8) Scope of Cash on Consolidated Statements of Cash Flows**

Cash and cash equivalents in the statements of cash flows consist of vault cash, deposits that can be withdrawn on demand, and short-term investments generally with maturities of 3 months or less, that are readily convertible to known amounts of cash and present insignificant risk of change in value.

#### **(9) Other Material Items in Basis of Presentation of Consolidated Financial Statements**

##### *Accounting for consumption taxes*

Consumption and local consumption taxes are accounted for by the tax-exclusion method. Consumption and local consumption taxes that do not qualify for deduction are written off as expenses in the consolidated fiscal year under review.

#### **ACCOUNTING STANDARDS NOT YET APPLIED, ETC.**

- “Accounting Standard for Revenue Recognition” (ASBJ Statement No. 29 on March 30, 2018, Accounting Standards Board of Japan)
- “Implementation Guidance on Accounting Standard for Revenue Recognition” (ASBJ Guidance No. 30 on March 30, 2018, Accounting Standards Board of Japan)

#### **(1) Overview**

The International Accounting Standards Board (IASB) and the Financial Accounting Standards Board (FASB) in the United States jointly developed a comprehensive accounting standard for revenue recognition and published the “Revenue from Contracts with Customers” (IFRS 15 in the IASB and Topic 606 in the FASB) in May 2014. Given that IFRS 15 will be applied from a fiscal year starting on or after January 1, 2018 and that Topic 606 will be applied from the fiscal year starting after December 15, 2017, the Accounting Standards Board of Japan (ASBJ) has developed a comprehensive accounting standard for revenue recognition and published it together with the Implementation Guidance. The basic policy of the ASBJ in developing the accounting standard for revenue recognition is the setting of accounting standards, with the incorporation of the basic principles of IFRS 15 as a starting point, from a standpoint of comparability between financial statements, which is one of the benefits of achieving consistency with IFRS 15. If there are matters to be taken into consideration in Japan in actual practice, etc., alternative handling will be added within a range that would not impair financial statement comparability.

#### **(2) Planned date of application**

To be applied from the beginning of the fiscal year ending March 31, 2022.

#### **(3) Impact of application on these accounting standards, etc.**

The amount of impact of Accounting Standards for Revenue Recognition, etc. on consolidated financial statements is currently under assessment.

#### **CHANGE OF THE PRESENTATION METHOD**

##### **(Adoption of Partial Amendments to Accounting Standard for Tax Effect Accounting)**

Kinden has adopted Partial Amendments to Accounting Standard for Tax Effect Accounting (ASBJ Statement No. 28, February 16, 2018) from the beginning of the consolidated fiscal year under review. Accordingly, deferred tax assets are presented in investments and other assets and deferred tax liabilities are presented in noncurrent liabilities.

As a result, deferred tax assets of ¥5,637 million that were classified under current assets, deferred tax assets of ¥652 million that were classified under investments and other assets and deferred tax liabilities of ¥10,062 million that were classified under noncurrent liabilities on the consolidated balance sheets for the previous consolidated fiscal year have been reclassified as deferred tax assets of ¥879 million under investments and other assets and deferred tax liabilities of ¥4,652 million under noncurrent liabilities.

Deferred tax assets and deferred tax liabilities relating to the same taxable entity were offset against each other and total assets decreased ¥5,409 million compared with the amount before the accounting change.

##### **(Consolidated Statement of Income)**

“Taxes and dues” which was included in “other” under “non-operating expenses” in the previous consolidated fiscal year, is accounted for as a separate item in the consolidated fiscal year under review because it exceeds more than 10% of total non-operating expenses. Additionally, “compensation expenses” which was accounted for as a separate item in the previous consolidated fiscal year is included in “other” under “non-operating expenses” in the consolidated fiscal year under review because it is 10% or less of total non-operating expenses. To reflect these changes in the presentation method, the consolidated financial statements for the previous consolidated fiscal year have been reclassified.

As a result, “compensation expenses” of ¥241 million and “other” of ¥234 million presented under “non-operating expenses” in the previous consolidated fiscal year are reclassified as “taxes and dues” of ¥2 million and “other” of ¥474 million under “non-operating expenses.”

## NOTES TO CONSOLIDATED BALANCE SHEETS

1. The amounts of investment securities for non-consolidated subsidiaries and associates are as follows:

March 31

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
Investment securities—equity.....	¥2,839	¥2,251	\$20,283

### 2. Assets pledged as collateral

The assets below are pledged as collateral for the loans of Kinden's investment company, which operates the PFI business.

March 31

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
Investment securities—equity.....	¥22	¥22	\$202
Investments and other assets— long-term loans receivable .....	19	18	167

### 3. Guarantee obligations

The Company guarantees bank loans and other obligations of non-consolidated companies.

March 31

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
BAN-BAN Networks Co., Ltd.....	¥ 20	¥20	\$186
Antelec Ltd. ....	416	—	—
Total .....	¥437	¥20	\$186

(Note) Of the above-stated guarantee obligations, those denominated in foreign currencies were translated to yen at the rates prevailing in foreign exchange markets (middle rate) on March 31, 2019.

### 4. Reduction entry

The reduction entry amounts deducted from the acquisition cost of property, plant and equipment due to state subsidies are as follows:

March 31

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
Buildings and structures, machinery and vehicles.....	¥5,172	¥5,136	\$46,276

## NOTES TO CONSOLIDATED STATEMENTS OF INCOME

1. The fiscal year-end balance of inventories is the written down book value based on decline in profitability, and the following loss on valuation of inventories is included in cost of sales of completed construction contracts.

For the fiscal years ended March 31

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
	¥19	¥(1)	\$(13)

2. Provision for loss on construction contracts included in cost of sales of completed construction contracts is as follows:

For the fiscal years ended March 31

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
	¥321	¥349	\$3,151

3. The principal expenses and amounts in selling, general and administrative expenses are as follows:

For the fiscal years ended March 31

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
Employees' salaries .....	¥24,095	¥24,886	\$224,220
Retirement benefit expenses .....	1,788	1,573	14,175
Provision of allowance for doubtful accounts.....	(586)	(177)	(1,595)

### 4. Research and development expenses

The total amount of research and development expenses included in selling, general and administrative expenses is as follows:

For the fiscal years ended March 31

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
	¥548	¥498	\$4,488

5. The breakdown of gain on sales of noncurrent assets is as follows:

For the fiscal years ended March 31

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
Buildings and structures.....	¥ 3	¥ 3	\$ 30
Machinery and vehicles .....	12	11	102
Tools, furniture and fixtures.....	0	—	—
Land .....	53	31	281
Other.....	0	—	—
Total .....	¥70	¥46	\$414

6. The breakdown of loss on sales of noncurrent assets is as follows:

For the fiscal years ended March 31

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
Buildings and structures .....	¥—	¥1	\$15
Machinery and vehicles .....	0	1	10
Tools, furniture and fixtures.....	0	0	0
Land .....	16	—	—
Other.....	0	—	—
Total .....	¥17	¥2	\$26

## 7. Impairment loss

For the fiscal years ended March 31, 2018 and 2019, the Group recorded the following impairment losses for asset groups.

### For the fiscal year ended March 31, 2018

Application	Location	Type	Millions of yen
Idle assets	Kinki region: 1 property	Land	¥0
	Other: 5 properties	Land	1

The Group determines operating asset impairment losses for individual branches and subsidiaries based on management accounting categories. Impairment losses for idle assets are determined for individual asset groups.

Idle asset book values were written down to recoverable values in light of ongoing land price declines. Impairment losses in the amount of ¥1 million were recorded in Extraordinary losses.

The recoverable amounts of said assets, all of which are determined by net selling price, are mainly calculated by performing reasonable adjustments to appraised values based on real estate appraisal standards.

### For the fiscal year ended March 31, 2019

Application	Location	Type	Millions of yen	Thousands of U.S. dollars
Idle assets	Kinki region: 7 properties	Land	¥242	\$2,189
	Other: 3 properties	Land	22	203

The Group determines operating asset impairment losses for individual branches and subsidiaries based on management accounting categories. Impairment losses for idle assets are determined for individual asset groups.

Idle asset book values were written down to recoverable values in light of ongoing land price declines. Impairment losses in the amount of ¥265 million (US\$2,392 thousand) were recorded in Extraordinary losses.

The recoverable amounts of said assets, all of which are determined by net selling price, are mainly calculated by performing reasonable adjustments to appraised values based on real estate appraisal standards.

## NOTES TO CONSOLIDATED STATEMENTS OF COMPREHENSIVE INCOME

### Reclassification Adjustments and Tax Effects Relating to Other Comprehensive Income

#### For the fiscal years ended March 31

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
Valuation difference on available-for-sale securities			
Amount recorded during the period .....	¥11,123	¥(5,732)	\$(51,650)
Reclassification adjustments ....	—	(0)	(7)
Amount before tax effect adjustments .....	11,123	(5,733)	(51,658)
Tax effect .....	(3,412)	1,739	15,675
Valuation difference on available-for-sale securities .....	7,711	(3,993)	(35,983)

## NOTES TO CONSOLIDATED STATEMENTS OF CHANGES IN NET ASSETS

### For the fiscal year ended March 31, 2018

#### 1. Matters related to class and number of issued shares and class and number of shares of treasury stock

	Thousands of shares			
	At April 1, 2017	Increase	Decrease	At March 31, 2018
Stock issued				
Common stock	218,141	—	—	218,141
Total	218,141	—	—	218,141
Treasury stock				
Common stock	1,183	4	0	1,187
Total	1,183	4	0	1,187

(Note) An increase of 4 thousand in the number of common treasury shares resulted from purchases of shares constituting less than one trading unit. A decrease of less than 0 thousand in the number of common treasury shares resulted from the purchase and transfer of shares to top up holdings of less than one trading unit.

## 2. Matters related to dividends

### (1) Dividend payment

Resolution	Class of shares	Total dividends	Dividends per share	Record date	Effective date
General Meeting of Shareholders on June 27, 2017	Common stock	¥3,037 million	¥14.0	March 31, 2017	June 28, 2017
Board of Directors' Meeting on October 31, 2017	Common stock	¥2,820 million	¥13.0	September 30, 2017	November 30, 2017

### (2) Dividends with a date of record during the fiscal year ended March 31, 2018 and an effective date during the next fiscal year

Resolution	Class of shares	Total dividends	Source of dividend funds	Dividends per share	Record date	Effective date
General Meeting of Shareholders on June 26, 2018	Common stock	¥3,254 million	Retained earnings	¥15.0	March 31, 2018	June 27, 2018

### For the fiscal year ended March 31, 2019

#### 1. Matters related to class and number of issued shares and class and number of shares of treasury stock

	Thousands of shares			
	At April 1, 2018	Increase	Decrease	At March 31, 2019
Stock issued				
Common stock	218,141	—	—	218,141
Total	218,141	—	—	218,141
Treasury stock				
Common stock	1,187	2	0	1,189
Total	1,187	2	0	1,189

(Note) An increase of 2 thousand in the number of common treasury shares resulted from purchases of shares constituting less than one trading unit. A decrease of less than 0 thousand in the number of common treasury shares resulted from the purchase and transfer of shares to top up holdings of less than one trading unit.

## 2. Matters related to dividends

### (1) Dividend payment

Resolution	Class of shares	Total dividends	Dividends per share	Record date	Effective date
General Meeting of Shareholders on June 26, 2018	Common stock	¥3,254 million \$29,320 thousand	¥15.0 \$0.13	March 31, 2018	June 27, 2018
Board of Directors' Meeting on October 31, 2018	Common stock	¥3,037 million \$27,365 thousand	¥14.0 \$0.12	September 30, 2018	November 30, 2018

### (2) Dividends with a date of record during the fiscal year ended March 31, 2019 and an effective date during the next fiscal year

Resolution	Class of shares	Total dividends	Source of dividend funds	Dividends per share	Record date	Effective date
General Meeting of Shareholders on June 25, 2019	Common stock	¥3,471 million \$31,275 thousand	Retained earnings	¥16.0 \$0.14	March 31, 2019	June 26, 2019

## NOTES TO CONSOLIDATED STATEMENTS OF CASH FLOWS

### 1. Reconciliation of cash and cash equivalents at the end of period in the consolidated statements of cash flows to amounts in items shown on the consolidated balance sheets

#### For the fiscal years ended March 31

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
Cash and deposits.....	¥ 45,876	¥ 40,255	\$ 362,692
Deposits with maturities longer than 3 months .....	(6,397)	(3,064)	(27,606)
Short-term investment with maturities within 3 months after the date of acquisition ...	102,000	110,000	991,080
Cash and cash equivalents .....	¥141,478	¥147,191	\$1,326,166

## LEASE TRANSACTIONS

Information on leases has been omitted due to lack of materiality.

## FINANCIAL INSTRUMENTS

### 1. State of Financial Instruments

#### (1) Policies on financial instruments

The Group manages its financial assets through a low-risk combination of primarily short-term (one year or less) and medium- and long-term operations, and secures short-term working capital through bank borrowings.

Derivatives are used to avoid exchange rate and other fluctuation risks, and not for speculative investment purposes.

#### (2) Financial instruments and related risks and risk management measures

Notes receivable, accounts receivable from completed construction contracts and other are subject to customer credit risk. This risk is addressed by managing receivables from each customer according to due date and outstanding balance, and by maintaining up-to-date information on the creditworthiness of major customers.

Investment securities in the form of stock holdings consist mainly of shares in companies with which there exist business relationships. These holdings are subject to market price fluctuation risk, and important matters are reported on in Management Meetings.

Notes payable, accounts payable for construction contracts and other are nearly all due within one year.

Short-term loans payable consist mainly of capital borrowed in connection with business transactions.

For foreign exchange forward contracts, hedging accounting is applied to derivatives to avoid exchange rate fluctuation risks for foreign-currency-denominated accounts payable and prospective foreign-currency-denominated transactions for the importation of raw materials. The method for evaluating the effectiveness of hedges is discussed under "Basis of Presenting Consolidated Financial Statements, (6) Accounting for Hedging" in "5. Summary of Significant Accounting Policies."

Derivative transactions are undertaken and managed based on internal regulations stipulating the authority for derivative trading and scope of transactions.

Derivatives are undertaken only with financial institutions with high credit ratings to reduce credit risk.

Trade payables and borrowings are subject to liquidity risk, which the Group manages by, for example, having each Group member prepare a monthly cash flow plan.

### (3) Supplementary explanations regarding market values of financial instruments, etc.

Market values of financial instruments are determined based on market prices when they are available and reasonable estimates when they are not. Estimates incorporate variables that, if changed, may cause estimated values to change.

## 2. Market Values of Financial Instruments

The book values appearing on the consolidated balance sheets, market values of financial instruments, and the differences between these values were as shown below. Information on those instruments for which it was impractical to determine market values is not shown (refer to Note 2).

### March 31, 2018

\*The allowance for doubtful accounts corresponding to notes receivable, accounts receivable from completed construction contracts and other is deducted.

### (Note 1) Method for determining market values for financial instruments, and matters regarding short-term investment securities

#### Assets

#### (1) Cash and deposits

Deposits are all short-term, so market values and book values are nearly the same. Market values for deposits, therefore, were determined to be the same as book values.

(2) Notes receivable, accounts receivable from completed construction contracts and other

Book value is used for items settled in the short term, as their market value approximates book value. The market values for items with a settlement period exceeding one year are determined as the present values of individual receivables classified by time period and discounted at interest rates reflecting credit risk through to maturity for each receivable.

(3) Short-term investment securities and investment securities

The market values of these assets were determined based on stock exchange prices in the case of stocks, and market prices or values provided by counterparty financial institutions in the case of bonds. Negotiable deposits are short-term, so market values and book values are nearly the same. Market values for negotiable deposits, therefore, were determined to be the same as book values.

#### Liabilities

(1) Notes payable, accounts payable for construction contracts and other and (2) Short-term loans payable

These liabilities are short-term, so market values and book values are nearly the same. Market values for these liabilities, therefore, were determined to be the same as book values.

(Note 2) Amount entered on the consolidated balance sheet for financial products for which it is extremely impractical to determine market value

March 31

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
Unlisted stocks, etc. ....	¥5,669	¥5,067	\$45,657

As it is deemed impossible to determine market value without a market price, they are not included under (3) Short-term investment securities and investment securities.

Total.....	\$487	\$184	\$1

### 4. Impairment Loss on Securities

For the fiscal year ended March 31, 2018

During the fiscal year ended March 31, 2018, the Company recognized impairment loss on securities of ¥0 million. Among available-for-sale securities, the Company recognized impairment loss of ¥0 million on stocks without market values.

The Group determines impairment loss on the stocks in question based on "significant decline," which it defines as a decline of 30% or higher in the market value for stocks with market values and a decline of 30% or higher in the amount obtained by multiplying the number of stocks held by net assets per share from the acquisition cost for stocks without market values respectively.

For the fiscal year ended March 31, 2019

During the fiscal year ended March 31, 2019, the Company recognized impairment loss on securities of ¥38 million (US\$345 thousand) (¥38 million (US\$343 thousand) on stocks with market value in available-for-sale-securities and ¥0 million (US\$1 thousand) on stocks without market values in available-for-sale-securities).

The Group determines impairment loss on the stocks in question based on "significant decline," which it defines as a decline of 30% or higher in the market value for stocks with market values and a decline of 30% or higher in the amount obtained by multiplying the number of stocks held by net assets per share from the acquisition cost for stocks without market values respectively.

### DERIVATIVE TRANSACTIONS

For the fiscal years ended March 31, 2018 and 2019

Not applicable.

### RETIREMENT BENEFITS

#### 1. Outline of the Adopted Retirement Benefit Plan

The Company has adopted funded and unfunded defined plans in order to provide employees retirement benefits.

Some of the consolidated subsidiaries subscribe to funded and unfunded defined benefit plans and the Retirement Allowance Mutual Aid System.

#### 2. Defined Benefit Plan

##### (1) Reconciliation schedule for opening and closing balances of projected benefit obligations

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
Opening balance of projected benefit obligations .....	¥ 134,496	¥134,621	\$1,212,916
Service cost .....	5,405	5,263	47,426
Interest cost .....	395	395	3,562
Actuarial loss.....	(1,226)	1,093	9,856
Retirement benefits provided.....	(4,449)	(4,397)	(39,619)
Closing balance of projected benefit obligations .....	¥134,621	¥136,977	\$1,234,141

(Note) Some of the consolidated subsidiaries calculate employees' retirement benefit obligation by the simplified method.

##### (2) Reconciliation schedule for opening and closing balances of plan assets

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
Opening balance of plan assets.....	¥105,676	¥108,698	\$979,354
Expected return on plan assets .....	2,103	2,164	19,499
Actuarial gain.....	1,668	(448)	(4,038)
Contribution of employer ....	2,774	2,825	25,454
Retirement benefits paid .....	(3,524)	(3,397)	(30,610)
Closing balance of plan assets.	¥108,698	¥109,842	\$989,659

**(3) Reconciliation schedule for the closing balance of projected benefit obligations and plan assets, and for net defined benefit liability and asset recorded on the consolidated balance sheet**

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
Projected benefit obligations, funded plan .....	¥116,485	¥ 118,183	\$1,064,812
Plan assets .....	(108,698)	(109,842)	(989,659)
	7,786	8,341	75,153
Projected benefit obligations, unfunded plan .....	18,136	18,793	169,329
Net amount of liabilities and assets recorded on the balance sheet.....	25,923	27,135	244,482
Net defined benefit liability ...	25,923	27,135	244,482
Net defined benefit asset .....	—	—	—
Net amount of liabilities and assets recorded on the balance sheet.....	¥ 25,923	¥ 27,135	\$ 244,482

**(4) Value of retirement benefit expenses, and items in the breakdown thereof**

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
Service cost* .....	¥5,405	¥5,263	\$47,426
Interest cost .....	395	395	3,562
Expected return on plan assets.....	(2,103)	(2,164)	(19,499)
Amortization value of actuarial loss .....	2,033	1,505	13,563
Amortization value of prior service cost .....	(563)	(563)	(5,080)
Retirement benefit expenses related to defined benefit plans.....	¥5,167	¥4,436	\$39,972

\* Employees' retirement cost of consolidated subsidiaries that calculate employees' retirement benefits by the simplified method is included in Service cost.

**(5) Remeasurements of defined benefit plans, before tax effect deductions**

A breakdown of remeasurements of defined benefit plans, before tax effect deductions is as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
Prior service cost .....	¥ 563	¥563	\$5,080
Actuarial gains and losses .....	(4,928)	36	330
Total.....	¥(4,364)	¥600	\$5,411

**(6) Remeasurements of defined benefit plans**

The breakdown of items recorded in remeasurements of defined benefit plans (before tax effect deductions) is as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
Unrecognized prior service cost.....	¥ (4,511)	¥ (3,947)	\$ (35,564)
Unrecognized actuarial loss.....	13,616	13,653	123,016
Total.....	¥ 9,105	¥ 9,706	\$ 87,451

**(7) Items concerning plan assets**

*(a) Primary breakdown of plan assets*

The ratio for each main category with respect to total plan assets is as follows:

	2018	2019
Domestic bonds .....	47%	47%
Domestic equities.....	13	12
Foreign bonds.....	6	6
Foreign equities .....	10	11
Insurance assets (General account).....	23	23
Cash and deposits.....	0	0
Others .....	1	1
Total.....	100%	100%

*(b) Method for establishing the long-term expected rate of return*

The long-term expected rate of return is to be determined considering the current and future allocation of plan assets, and the current and expected long-term rate of return from the diverse assets composing the plan assets.

**(8) Items concerning actuary calculation bases**

Main actuary calculation bases for the current fiscal year

	2018	2019
Discount rate .....	0.29%, 0.8%	0.29%, 0.8%
Long-term expected rate of return...	2.0%, 1.2%	2.0%, 1.2%

## DEFERRED TAX ACCOUNTING

### 1. Principal Components of Deferred Tax Assets and Liabilities

March 31

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
Deferred tax assets:			
Allowance for doubtful accounts.....	¥ 681	¥ 639	\$ 5,765

Total deferred tax assets .....	¥ 14,782	¥ 15,547	\$ 140,079
Deferred tax liabilities:			
Valuation difference on available-for-sale securities ....	(17,593)	(15,853)	(142,841)
Reserve for advanced depreciation of noncurrent assets .....	(100)	(100)	(901)
Others.....	(861)	(726)	(6,545)
Total deferred tax liabilities .....	¥(18,554)	¥(16,680)	\$(150,288)
Net deferred tax liabilities.....	¥ (3,772)	¥ (1,133)	\$ (10,208)

### 2. Breakdown of the Main Factors in Difference Between the Effective Statutory Tax Rate and the Effective Tax Rate after Adopting Tax Effect Accounting

March 31

	2018	2019
Effective statutory tax rate	30.8%	This disclosure is omitted as the difference between the effective statutory tax rate and the effective tax rate after adopting tax effect accounting is 5% or less of the effective statutory tax rate.
(Adjustments)		
Permanently non-deductible items	1.9	
Permanently non-taxable items	(0.2)	
Increase/decrease in valuation allowance	(5.3)	
Other	(0.0)	
Corporate tax, etc., overage ratio after application of tax effect accounting	27.1	

## ASSET RETIREMENT OBLIGATION

For the fiscal years ended March 31, 2018 and 2019

The Company, through a subsidiary that engages in the wind power generation business, retains an obligation relating to the removal of equipment and facilities and the return of land to its original state at the termination of surface usage right agreements and land lease agreements. As the usage period of leased assets related to this obligation and the planned removal of future equipment and facilities remain unclear, the Company has not recognized an asset retirement obligation relating to the aforementioned obligation because the Company is unable to accurately estimate said asset retirement obligation.

## INVESTMENT AND RENTAL PROPERTIES

For the fiscal years ended March 31, 2018 and 2019

Information on rental and other real estate has been omitted due to lack of materiality.

## SEGMENT INFORMATION

### Segment Information

For the fiscal years ended March 31, 2018 and 2019

The Company has only one reporting segment, the Facility Construction Business, and, therefore, does not report segment information.

### Related Information

For the fiscal year ended March 31, 2018

#### (1) Information by products and services

Sales to external customers of individual products and services accounted for more than 90% of net sales reported on the consolidated statements of income and, therefore, does not report.

#### (2) Information by geographical region

##### (a) Net sales

Sales to external customers in Japan accounted for more than 90% of net sales reported on the consolidated statements of income and, therefore, does not report.

##### (b) Property, plant and equipment

The value of property, plant and equipment located in Japan accounts for more than 90% of property, plant and equipment reported on the consolidated balance sheets and, therefore, does not report.

RELATED-PARTY TRANSACTIONS

1. Transactions between Related Parties

Transactions between the Company and Related Parties

Transactions between the parent company of the Company and major shareholders (companies, etc., only), etc.

For the fiscal year ended March 31, 2018

Type of transaction	Name of company or individual (address)	Capital stock or investment	Description of business or position	Percentage of voting rights held	Transactions between related parties	
Other affiliates	The Kansai Electric Power Company, Incorporated (Kita-ku, Osaka)	¥489,320 million	Electric power business	(Held) Direct 27.2% Indirect 6.7% [See Figure 1]	Receipt of orders for power distribution lining and transmission line construction, etc. Concurrent service of directors	
		Description of transaction		Amount of transaction	Account	Balance at the end of the fiscal year
		Operating transactions	Electrical projects orders	¥64,476 million	Accounts receivable from completed construction contracts	¥9,861 million
					Advances received on uncompleted construction contracts	¥473 million

(Note 1) Consumption taxes are not included in transaction amounts above, but are included in the balance at the end of the fiscal year.

(Note 2) Terms of transactions and policy for determining terms of transactions, etc.

With regard to orders for electrical construction, the Company concludes construction service contracts at appropriate prices considering market prices and other factors, after negotiating costs, including on materials purchases and other factors.

Figure 1

(Note 3) Percentage of voting rights held is calculated based on the number of shares with voting rights owned as of March 31, 2018.

**For the fiscal year ended March 31, 2019**

## AMOUNTS PER COMMON SHARE

For the fiscal years ended March 31

	Yen		U.S. dollars
	2018	2019	2019
Net assets per common share.....	¥1,991.52	¥2,070.11	\$18.65
Profit attributable to owners of parent per common share.....	135.87	132.95	1.19

(Note 1) Profit attributable to owners of parent per common share adjusted for latent shares is not stated because there are no latent shares.

(Note 2) The basis for calculating profit attributable to owners of parent per common share is as follows.

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
Profit attributable to owners of parent.....	¥29,478	¥28,844	\$259,880
Amount not attributable to ordinary shareholders.....	—	—	—
Profit attributable to owners of parent applicable to common stock.....	29,478	28,844	259,880

	Thousands of shares	
	2018	2019
Average number of common stock outstanding for each period.....	216,955	216,952

(Note 3) The basis for calculating net assets per share is as follows:

	Millions of yen		Thousands of U.S. dollars
	2018	2019	2019
Total net assets .....	¥433,227	¥450,265	\$4,056,814
Amounts deducted from total net assets .....	1,159	1,153	10,393
Non-controlling interests.....	1,159	1,153	10,393
Total net assets related to common stock .....	432,067	449,112	4,046,420

	Thousands of shares	
	2018	2019
Number of common stock used to calculate net assets per share.....	216,953	216,951

## SUBSEQUENT EVENTS

### (Partial transfer to a defined contribution benefit plan)

From April 2019, Kinden transferred a portion of its defined benefit plan to a defined contribution benefit plan and has adopted Guidance on Accounting for Transfer between Retirement Benefit Plans (ASBJ Implementation Guidance No.1 issued on December 16, 2016).

Along with this transfer, the Company expects to record extraordinary income of ¥1,603 million in the next consolidated fiscal year.

## CONSOLIDATED SUPPLEMENTAL SCHEDULES

### Schedule of Corporate Bonds

Not applicable.

### Schedule of Outstanding Loans, etc.

	At April 1, 2018	At March 31, 2019	Average rate	Due date
Short-term loans payable	¥16,240 million	¥ 15,540 million \$140,012 thousand	1.418%	—
Current portion of long-term loans payable	—	—	—	—
Current portion of lease obligations	¥70 million	¥64 million \$576 thousand	—	—
Long-term loans payable (Excluding current portion of long-term loans payable)	—	—	—	—
Lease obligations (Excluding current portion of lease obligations)	¥156 million	¥143 million \$1,296 thousand	—	From 2020 to 2023
Other interest-bearing debt	—	—	—	—
Total	¥16,467 million	¥15,747 million \$141,885 thousand	—	—

(Note 1) Average interest rate is weighted average interest rate for the balance of outstanding loans at the end of the fiscal year.

Average interest rate for lease obligations is not shown because the amount equivalent to interest included in total lease fees is allocated to each consolidated fiscal year using the straight-line method.

(Note 2) The aggregate annual maturities of lease obligations within five years after March 31, 2019 (except for those scheduled for repayment within one year) are as follows:

	Over 1 to within 2 years	Over 2 to within 3 years	Over 3 to within 4 years	Over 4 to 5 within years
Lease obligations	¥82 million \$745 thousand	¥46 million \$418 thousand	¥13 million \$123 thousand	¥0 million \$8 thousand

### Schedule of Asset Retirement Obligations

Not applicable.

PKF HIBIKI AUDIT CORPORATION  
4F KITAHAMA YAMAMOTO BLDG.  
2-3-6 KITAHAMA, CHUO-KU,  
OSAKA, 541-0041, JAPAN

To the Board of Directors of  
KINDEN CORPORATION

We have audited the accompanying consolidated balance sheets of KINDEN CORPORATION and consolidated subsidiaries (the "Company") as of March 31, 2019, and the related consolidated statements of income, comprehensive income, changes in net assets, and cash flows for the year ended March 31, 2019 and a summary of significant accounting policies and other explanatory information, all expressed in Japanese yen.

#### Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in conformity with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatements, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express independently an opinion on these consolidated financial statements based on our audit. We conducted our audit in conformity with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of KINDEN CORPORATION and consolidated subsidiaries as of March 31, 2019, and the consolidated results of their operations and their cash flows for the year then ended in conformity with accounting principles generally accepted in Japan.

Also, in our opinion, the U.S. dollar amounts in the accompanying consolidated financial statements have been translated from Japanese yen on the basis set forth in Note 1 to the consolidated financial statements.

*PKF Hibiiki Audit Corporation*
